SIMPLE HABITS FOR EFFECTIVE PARENTING is an inspiring read for every Christian parent seeking an easy-to-understand approach to raising a child. This comprehensive practical resource offers expert Christian advice on how to develop a parenting vision, effectively guide a child, strengthen a parent-child relationship, apply loving discipline, teach successful life skills, boost a child's self-confidence, encourage positive academic effort, and help a child grow in their faith in Jesus.

Through this essential knowledge, you will more effectively parent your child and be able to “Correct your habits and change your actions for the better” (Jeremiah 18:11). With this beneficial practical wisdom of specific words and daily actions, you will possess the skills to effectively guide your child for a stronger parent-child relationship that produces a confident, good decision-making, responsible child. *SIMPLE HABITS FOR EFFECTIVE PARENTING* and this *Study Guide* will enable you to become a “parenting expert” so you can lead your child to have a fulfilling, godly life.

HOW TO USE THIS STUDY GUIDE

1. After reading this book, you can utilize this *Study Guide* in the following three ways.
 - A. As a *parent*, you can answer the questions on your own and reflect on the practical wisdom in each chapter.
 - B. As *mom* and *dad*, you can discuss together the questions for each chapter. Repetition is the mother of all learning and the father of action, so you will become even more connected as parents to help guide your child.

- C. *A group of parents* can meet in various ways like a Bible study, small group, monthly parent meetings, one-day parenting seminar, parent enrichment weekend, MOPS (Mothers of Preschoolers), etc.
2. A pastor or church leader can select someone who will facilitate wholesome discussions, or your group can select a leader at the first meeting.
 3. **A primary goal** is to just exchange ideas and reinforce beneficial *Simple Habits*, NOT try to solve specific parenting problems.
 4. **A second goal** is for every parent to end each meeting feeling encouraged, motivated, and firmly believe that they will be even more effective as a parent with these *Simple Habits*.
 5. **A third goal** is to learn from others how to implement the words, actions, and commonsense wisdom from the chapters.
 6. Relax! I hope you enjoy this wonderful experience of growing as a parent and becoming even more effective. Your group is not a classroom and there are no tests!
 7. Please be assured that there are NO “dumb” questions, and the emphasis is on learning skills, applying effort, and implementing *Simple Habits* to become more effective.
 8. Your leader **MUST** avoid letting anyone monopolize the meeting by trying to be the center of attention and **NOT** giving others a chance to share their thoughts.
 9. Group members learn from each other so some members may want to just listen as a “spectator,” and simply learn through the comments of other parents. Certainly, that is fine!
 10. Intentionally, there are more questions with each chapter discussion than can be covered in a single meeting. With the input of members, your leader may need to prioritize questions. Perhaps have time limits for the various questions to make your time together most productive.
 12. **Lower your expectations.** There are NO perfect parents or discussion gatherings. Placing expectations that are too high on your group meeting may lead to disenchantment and limit the positive benefits for becoming more effective as a parent.

Change often takes time but understand that **small changes CAN and WILL** lead to greater improvement in becoming a more *Effective Parent*. Do not wait until tomorrow but **act today** with these *Simple Habits* by **learning, improving, and growing as a parent for the sake of your parent-child relationship.**

The most important part of this *Study Guide* is **NOT** what you learn, but what you will **DO daily** -- meaning the **WORDS** you speak **DAILY** and the **ACTIONS** you take **DAILY** with this practical parenting wisdom—*Simple Habits*.
