

The Michigan District Board of Directors (BOD) is pleased to facilitate a Listening and Synergy event for the West Region. In an ongoing effort to connect more effectively with our congregations, the BOD has been inviting congregation members to get to know the Board and understand its function. Past events have presented information about the BOD and outlined what resources are available to our member congregations from the District.

In this meeting, we are asking congregations to share some brief stories of their successes (and not-so successes), that we all might learn from them and generate ideas on how to more effectively spread the good news of the Gospel. The BOD would like to pass along these stories so that we may better serve the District.

Please join us at St. Lorenz, Frankenmuth for an evening of Christian brotherhood and discussion.

This event does not require pre-registration.
